

## Des prototypes «bonne matière» au service de la conception

*Prototypes with true production material  
to serve the conception*

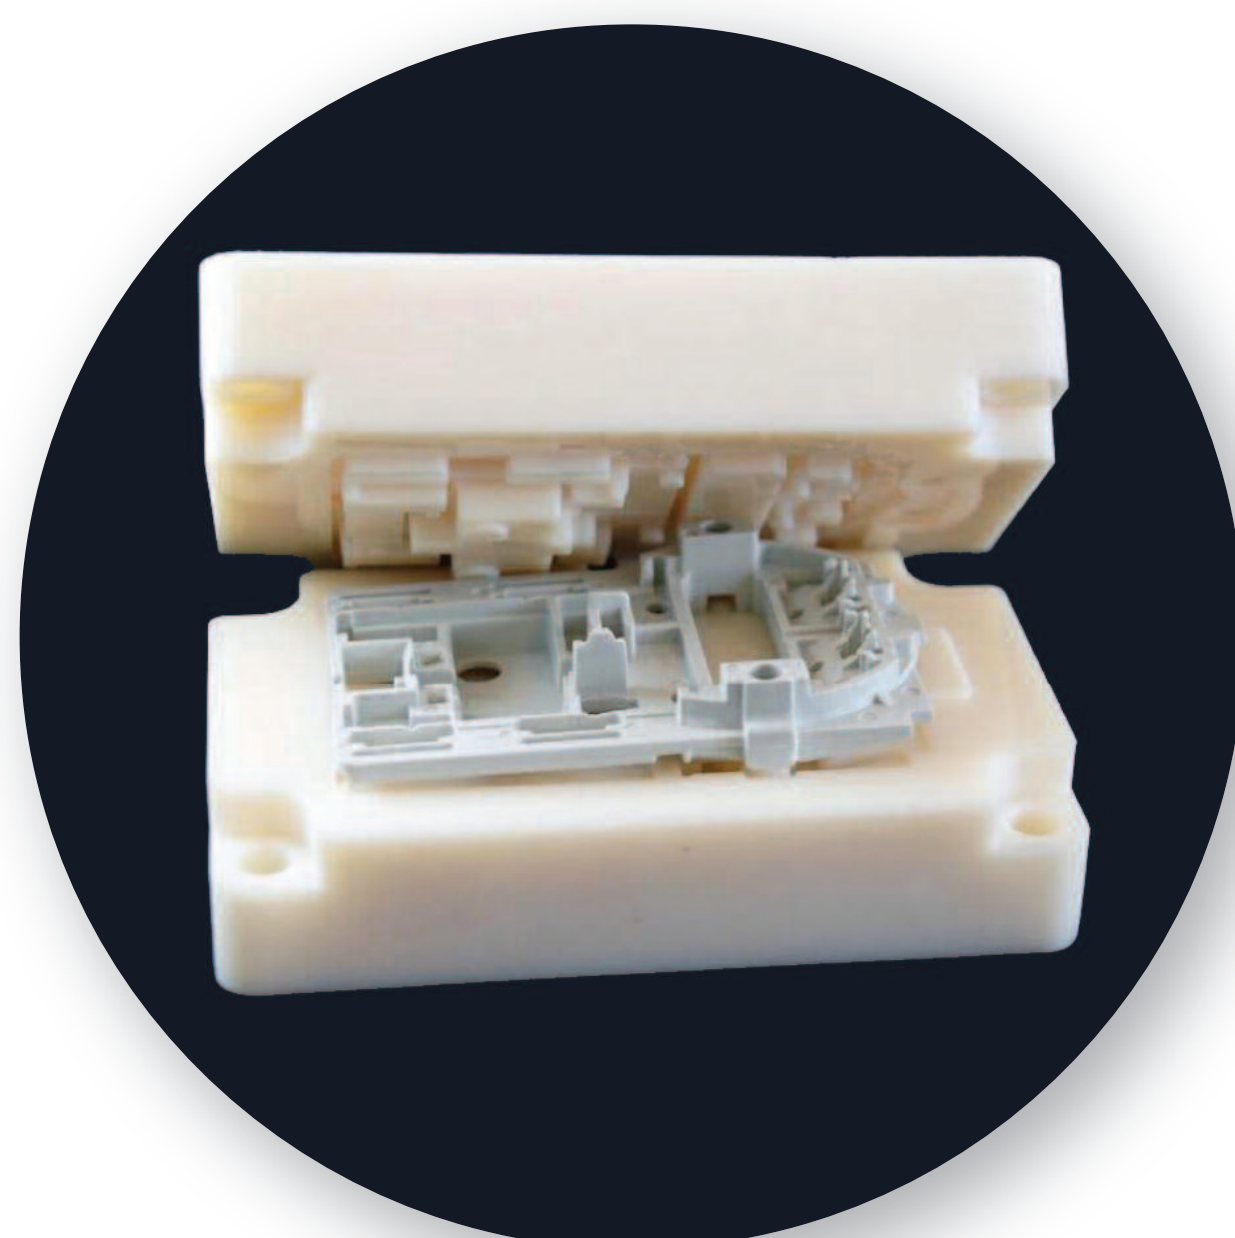

### Expertise de la pièce plastique

*Expertise in  
plastic part*

### Maîtrise des contraintes de moulage

*Mastery of the constraints  
of injection molding*

### Conception et réalisation de l'empreinte par fabrication additive

*Designing and manufacturing  
the mold's cavity by additive  
manufacturing*

### Délai court

*Short schedule*

### De 50 à 100 pièces «bonne matière»

*Between 50 to 100 parts  
with true production  
material*
