

A detailed view of industrial machinery, likely for filling or processing. It features stainless steel frames, various hoses (blue, yellow, and grey), and a brown glass bottle positioned within the machine. The background is slightly blurred, showing more of the industrial environment.

MACHINERY
FOR COSMETIC,
PHARMACEUTICAL
AND FOOD INDUSTRY

di Denis  Mancarella

The logo consists of the letters 'DMC' in a bold, black, sans-serif font. Below the letters is a horizontal bar divided into three equal segments of green, white, and red, representing the Italian flag.

-  Dense

DMC IN THE WORLD

After more than 20 years as a contractor for the production of plants and machines for the most important Italian and foreign companies, the owner and founder Denis Mancarella has decided to make available the expertise and experience gathered to give life to his own project.

Hence DMC Srls, an Italian company specialized in consultancy, design and construction of production and filling lines.

WHY DMC?

A constantly evolving company that since 2014 has been at the entrepreneur side. Our goal has always been to make customers' work easier and more efficient, listening to their needs. Thanks to the constant dedication and commitment, today DMC srls is already recognized in many countries as a reference point.

From consultancy to assembly, with 360° support even in aftersales service, our mission is to provide customers with the best solution to their needs, satisfying every mechanical and functional design requirement. DMC is constantly looking for innovation and development, which translates into high quality machines. Thanks to the combination of advanced technology and customer care in the pre and after sales, DMC has established itself as a competitive company in the Italian and foreign market.

Automatic Filling Line

Watch the machine
in action:

Versatility

Suitable to fill small and medium-sized containers up to a volume of about 5L, our filling lines can satisfy most of the filling needs. Each line can be adapted to the needs of our customers, depending on the type of a production (types of products), a planned capacity and space requirements (size and shape of the production hall).

Technical parameters

Model	Filling head	Filling Accuracy	Air pressure	Output	Filling System	Product	Supply
DMC-FA1H	1	±0.5%	4 - 6 bar	1000 pcs/h	Brushless / lobs pump / peristaltic	Creme, lotion, paste	Air and Electricity
DMC-FA2H	2	±0.5%	4 - 6 bar	2000 pcs/h		Creme, lotion, paste	Air and Electricity
DMC-FA4H	4	±0.5%	4 - 6 bar	4000 pcs/h		Creme, lotion, paste	Air and Electricity
DMC-FA6H	6	±0.5%	4 - 6 bar	6000 pcs/h		Creme, lotion, paste	Air and Electricity
DMC-FA8H	8	±0.5%	4 - 6 bar	8000 pcs/h		Creme, lotion, paste	Air and Electricity
DMC-FA12H	12	±0.5%	4 - 6 bar	12000 pcs/h		Creme, lotion, paste	Air and Electricity

DMC-A2L	40-50 pcs/min	60-280 mm	20-300 mm	20-160 mm	3000x1530x1670 mm	1 or 2 on a round or square bottle	Air and Electricity

Semiautomatic Labeling Machine

Watch the machine in action:

Technical parameters

Model	Output	Bottle Diameter	Label Length	Label Width	Dimension (LxWxH)	Number of Labels	Supply
DMC-LS	15-30 pcs/min	φ 15-150 mm	20-200 mm	20-220 mm	920x470x500 mm	1 or 2 on a round bottle	Air and Electricity

Mini Labeling Machine

Technical parameters

Model	Output	Bottle Diameter	Label Length	Label Width	Dimension (LxWxH)	Number of Labels	Supply
DMC-AL MINI	20-40 pcs/min	25-100 mm	20-220 mm	20-130 mm	1500X780X650 mm	1 on a round bottle	Air and Electricity

Inkjet Printer

Technical parameters

Model	Character Height	Printing Area	Printing Speed	Printer Head	Printing Material	Dimension (LxWxH)
DMC-IP	1-25 mm	1-4 lines	200 m/min 1305 characters/s	Rotating 360°	Glass, metal, plastic, paper	500x300x650 mm

Conveyor

Movable Homogenizer Mixer

Diversified homogenizer

Technical parameters

Model	Lifting	Dimension (LxWxH)	Power	Mixing Head
DMC-PM	Electrical or Pneumatic	1200x1400x3500 mm	5.5 Kw	With Homogenizer or Mixer

Semi Automatic Capsule Filler

Technical parameters

Speed: 10,000 pcs / h

Machine equipped with capsule positioning system, capsule division, capsule filling, capsule coupling

Capsule 00: 300 pieces, filling 0.55 gr

Capsule 0: 360 pieces, filling 0.45 gr

Capsules 1 to 3: 420 pieces, filling 0.35 gr

Dosing group with hopper and worm screw, capacity about 12 Kg

Product type: Powders; Powders and Granules on request

Automatic Capsule Filler

- Machine equipped with
- capsule positioning system
 - capsule division
 - capsule filling
 - capsule coupling

Technical parameters

Power	Speed	Weight	Filling accuracy
220V 50/60HZ	200W	30 Kg	100~500

Semiautomatic Counting Machine

It counts pills, tablets and capsules of various shapes and dimensions.

Watch the machine in action:

Technical parameters

Supply	Power	Weight	Output (pieces/min)	Size
220V 50/60HZ	200W	30 Kg	100~500	570X300X660mm

Compact Automatic Blistering Machine

Complete with chiller
One format included
(ALU + ALU or ALU + PVC
to be defined)

Options:
Centering sensor
Extra format ALU + ALU or
ALU + PVC
Pre cut

Technical parameters

Frequency	10-35 times/min 1 blister/time
Output	2400 bilisters/h
Max forming area	70*110*20mm
Standard blister size	80 * 57mm (to be defined)
Air pressure	0.6-0.8Mpa
Power supply	3phase 380V 50HZ
Total power	3.2kw
Machine dimensions	1600*600*1100mm
Weight	385kg

Automatic Cartoning Machine

Technical parameters

Model	Output	Carton Requirements	Depth of Preformed Folds	Motor	Supply	Dimension (LxWxH)
DMC-AC	70 pcs/min	300-350 g/m ³	Min 0.4 mm	4 Kw	Air and Electricity	2850x1350x1600 mm

Compressor

Compressed air system complete with screw compressor, dryer and storage tank.

Technical parameters

Plant Size (LxWxH)	Capacity	Pressure	Power	Noise	Connections
Compressor: 80x60x h 85cm Dryer: 65x43x h 64cm Storage Tank 600L: diameter 80cm x h 200cm	1,2 m3 / min	6-8 bar	7.5kw	65dB	1 socket 220V 16 A 1 socket 380V

Pallet Truck

Manual pallet truck with polyurethane rollers and 3000 kg capacity with single rollers. The rudder has three controls, up, down and pause.

Technical parameters

Total width	68cm or 53cm
Internal distance between forks	37cm or 21cm
Fork length	114cm
Single fork width	16cm
Total length of pallet truck	159cm
Maximum lifting height	115mm
Capacity	3ton
Rollers diameter	80x70mm
Steering angle	210°
Wheel diameter	200mm
Lifting type	manual
Integrated weighing scale	on request
