

AUTOWHEEL SOLUTION

The AutoWheel is the only glue wheel replacement solution that builds on the strengths of traditional glue wheel technology, preserving all its benefits while eliminating its associated downtime. Enjoy a substantial production uptime increase with the AutoWheel drop-in replacement that simplifies your operations. No learning curve required.

COMPLETE GLUE WHEEL REPLACEMENT & UPGRADE

The AutoWheel eliminates downtime and reduces cost:

- No cleaning required - Keep your folder gluer running.
- Run your line as fast as possible, no stringing at any speed.
- No manual glue refills. It is a fully automated system.
- No more disposal of glue from the glue pot.

THIS HAS A DIRECT IMPACT ON

PRODUCTIVITY

Cleaning the glue wheel is a necessary but time consuming task. At an average of 20 min per shift, a single-shift facility dedicates the equivalent of more than 10 working days per year on this task. This is time and resources that could otherwise be focused on production.

How much time is your machine down for glue wheel cleaning?

PRODUCT QUALITY

At higher operating speeds, glue wheels may cause slinging or spraying, creating glue stickers outside the tab side area and resulting in cartons adhering to one another.

Is your top speed limited by glue wheel slinging or spraying?

OPERATIONS

Glue wheel systems require regular operator attention and manual refilling. This increases workload and the risk for human error, downtime, and production loss due to unglued cartons.

Can you trust your glue pot will never run out of glue?

ENVIRONMENTAL COSTS

During the glue wheel cleaning process, unused glue is discarded. This results in a recurring, unnecessary expense. As environmental regulations become stricter around the world, glue waste might be subject to additional handling and disposal costs.

Concerned about the impact of environmental regulations?

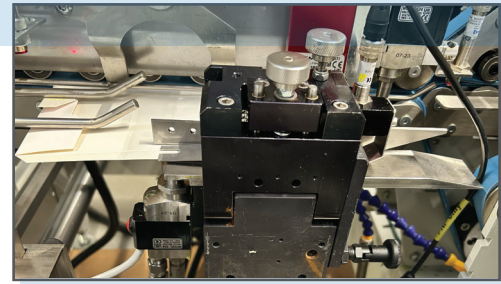

Eliminate Recurring Cleaning Downtime

CURRENT PRODUCTION

Production Days per Week	<input type="text"/>	days/week
Production Weeks per Year	<input type="text"/>	weeks/year
Target Production Rate	<input type="text"/>	cartons/hour
Glue Wheel Cleaning Time	<input type="text"/>	hours/day
Expected Profit per Carton	<input type="text"/>	per carton

PRODUCTION WITH AUTOWHEEL

Additional Cartons Produced	<input type="text"/>	cartons/year
Additional Profit	<input type="text"/>	per year

The AutoWheel does not require cleaning. It turns recurring downtime into machine uptime, allowing your line to produce more cartons every day.

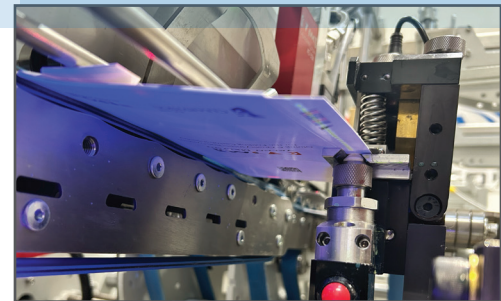

Eliminate Quality Complaints and Defects

CURRENT PRODUCTION

Cartons Lost due to Stickers	<input type="text"/>	cartons/month
Cartons Lost due to Missing Glue	<input type="text"/>	cartons/month
Value of a Waste Carton	<input type="text"/>	per carton
Customer Complaints due to Stickers	<input type="text"/>	per month
Value of Customer Complaints	<input type="text"/>	per complaint

PRODUCTION WITH AUTOWHEEL

Value of Eliminating Stickers	<input type="text"/>	per year
-------------------------------	----------------------	----------

The AutoWheel does not sling or spray glue at any working speed, and will not cause cartons to stick together.

Eliminate Glue Waste from Glue Pot Cleaning

CURRENT PRODUCTION

Number of Glue Wheel Cleanings	<input type="text"/>	cleanings/day
Glue Disposed per Cleaning	<input type="text"/>	unit of weight (lb, kg)
Value of Glue Disposed	<input type="text"/>	value/unit of weight

PRODUCTION WITH AUTOWHEEL

Value of Eliminating Daily Glue Disposal	<input type="text"/>	per year
------------------------------------------	----------------------	----------

The AutoWheel is automatically fed by a pump, controlled from a user-friendly screen.
